

About McGinty Business Services

Bob McGinty has owned and operated a number of businesses throughout his career. This real world experience as a component of the art and science involved in Business, Machinery, and Equipment appraisals has proven beneficial when combined with the various technical analyses needed to assess accurate value.

John Harris, a senior partner at McGinty Business Services with over 30 years appraisal experience, has owned several businesses and holds an MBA. As a multi-national appraiser and member of the World Trade Organization, John has performed appraisals and consulting services for the Mexican and Venezuelan governments as well as notable U.S. entities including Ford Motor Company, General Motors, General Electric, Dairy Queen, Pizza Hut, USAF, US Navy, Boeing, Cessna and the FDIC.

With over seventy years combined experience among our alliance network, added to the fact that we possess every credential and designation imaginable, McGinty Appraisals has become widely recognized as the “Present Day Value” oracle, and has been directly involved in the development of Machinery, Equipment, and Business appraisals in over a hundred different industries.

McGinty Appraisal partners provide Independent Third Party USPAP Compliant Certified Machinery and Equipment appraisals. The determined values of these appraisals are justifiable and defensible for clients of professional advisors, and meet the needs of Banking and Lending institutions, CPA’s, Financial Planners, Business Advisors, and Business Owners. In the legal arena, McGinty appraisals play a critical roll in decisions relating to Estate Planning, Mergers & Acquisitions, Minority Stock Holder issues, Divorce, Eminent Domain matters, and various other concerns. Consultants are now enabled to provide a platform that will enhance the value of the business while streamlining and employing cost cutting measures which ultimately result in greater efficiency and in many cases, additional value.

McGinty strategic alliances have prevailed the scrutiny of courts, IRS, FDIC, and every other regulating agency that they’ve encountered. A McGinty Appraisal provides the snapshot that YOU can count on to formulate your decisions critical to machinery, equipment and business valuations.

McGinty Team certifications include Accredited Senior Appraiser (ASA), Certified Machinery & Equipment Appraiser (CMEA), Certified Senior Business Analyst (CSBA), Certified Business Counselor (CBC), Professional Business Consultant (PBC), and Professional Enhancement Consultant (PEC). John Harris is a tested and certified Senior Member of American Society of Appraisers in the field of Machinery and Technical Specialty.
